

KENYA REINSURANCE CORPORATION LTD

ADDENDUM 1

Pursuant to section 75 of the PPADA 2015, Kenya Reinsurance Corporation Limited wishes to clarify to various aspects of the tender **PROVISION OF DATA LOSS PREVENTION TOOL- TENDER NO: KRC/2026/2834/301.**

Clarification	KenyaRe Response
We are currently preparing our submission for Tender No. KRC/2026/2834/301 – Provision of Data Loss Prevention Tool and would appreciate clarification on the solution requirements. Kindly confirm whether Kenya Re has a preferred OEM/vendor for the Data Loss Prevention (DLP) solution, or if bidders are at liberty to propose any OEM solution that meets the specifications and requirements outlined in the tender document. Your clarification will assist us in preparing a responsive proposal that aligns with your expectations. We appreciate your assistance and look forward to your response	Bidders are at liberty to propose any OEM solution that will integrate seamlessly with our existing infrastructure and current technology ecosystem. The proposed solution should be fully compatible with and capable of integrating with our Kaspersky antivirus environment, Microsoft 365 environment, various cloud infrastructure, and other existing systems.
Please clarify the number of users for the DLP solution.	The DLP solution is expected to cover approximately 210 end devices including file servers; the solution should be scalable and capable of supporting future growth. Bidders are requested to size and license their proposed solution, accordingly, including any components required for monitoring, policy enforcement, reporting, and management across the covered user base.

I am writing on behalf of Digify Solutions Limited regarding the recently published tender for the Provision of Data Loss Prevention Tool-KRC/2026/2834/301 To ensure we provide a comprehensive, tailored, and highly competitive proposal that aligns perfectly with your technical and commercial requirements, we would appreciate your clarification on the following points: 1.Number of Endpoints: Please provide the total number of endpoints, user licenses, or workloads that need to be covered by the Data Loss Prevention tool	The DLP solution is expected to cover approximately 210 end devices including file servers; the solution should be scalable and capable of supporting future growth. Bidders are requested to size and license their proposed solution, accordingly, including any components required for monitoring, policy enforcement, reporting, and management across the covered user base.
2.License Renewal Years: Please confirm the exact duration required for the licensing, annual support, and maintenance period	Per year license renewal

3.Type of Cloud Storage: Please clarify the specific cloud storage environments currently in use that the DLP solution must monitor and protect	The DLP solution must support monitoring and protection across a variety of cloud environments currently in use by the organization, including but not limited to Microsoft 365 (Exchange Online, SharePoint Online, OneDrive for Business, and Teams), as well as other cloud-hosted applications and storage platforms. The proposed solution should be scalable and capable of supporting future growth, including the integration of additional cloud services, storage repositories, SaaS applications, and hybrid cloud environments as business requirements change.
4.Disaster Recovery (DR) Requirement: Does the organization require high availability (HA) or a dedicated Disaster Recovery deployment configuration for the DLP management infrastructure. Thank you for your time, guidance, and assistance. We look forward to your response to help us finalize our submission.	The organization does not currently require a dedicated High Availability (HA) or Disaster Recovery (DR) deployment for the DLP management infrastructure. However, the proposed solution should provide built-in resiliency, backup, and recovery capabilities to ensure business continuity. The solution must also be scalable and capable of supporting future HA and DR requirements as the organization's needs grow.
Please confirm whether submission of Technical and Financial proposal should be done together or as separate documents.	This is separate
We wish to formally request an extension for the submission deadline of the above-referenced tender, which is currently scheduled to close on 29th September 2026 at 10.00am. Our organization is highly interested in participating in and delivering a competitive, high-quality proposal that aligns fully with your project goals. However, to ensure our bid is comprehensive and structurally robust, we require additional time. This request is primarily due to recent clarifications requested which we are still waiting on feedback.	This request has been granted. The bid submission deadline can be extended by one (1) week, from 29th September 2026 to 6th October 2026 subject to approval by the SP manager

We appreciate your understanding and consideration of this request.
